Mr. Weisberg;

Some time ago I watched you on television on the "Joe Pyne" show.. As Mr. Pyne has a very bad habit of trying to discredit or make his guests look bad, I was quite impressed when he was not able to even make you hesitate in your answers.

I have ever since the assassination of president Kennedy read as much about it as possible and found as you point out that there are too many questions left unanswered. I have always felt there was more information withheld than was printed for the public to read. The way I look at this is this; the President is chosen by the people to lead them and be their image to the rest of the world. This being the case why should the people of this nation be mislead and lied to in the way the politicians of high office have. I feel cheated and betrayed by my own government agencies.

One thing that I cannot remmember finding in any of the books I have read was the gun that "Oswald" was supposed to have at the time he was arrested in the movie theater. Did the ballistics compare with the bullets found in officer J.D.Tippet and what type and caliber was it. If you could answer this question for me I would be very grateful.

After watching and listening to you on T.V. I went out the next moring and tried to find your book "Whitewsh" but to no avail. I was successful in locating "Whitewash" but reading it before reading the first one left me somewhat confused due to the references back to "Whitewash".

As I have exausted all sources of supply in this area I decided to write to you and see if I could order it direct. Also on the "Joe Pyne" show you showed another book "Oswald in New Orleans" in paper back. I am including my check for both Whitwash & Oswald in New Orleans. The cost as far as I can determine is $.95 ea. so I have included $1.50 for each with hopes this will cover postage, and handling. If it is not enough please notify me and I will be happy to send whatever balance is needed.

Rec'd 10-23-68 not bill

Thank you very much and I hope & pray your efforts are rewarded. I do not see how the elements trying to suppress you can hold back the truth you seek. I know of no way in which I could help but if there is ever anyway believe me I would not hesitate to see honesty and truth brought forth...

Sincerly yours;
C.J. Forster (Owner)
